

ONLINE CAMPUS PASTOR

People's EC Church

JOB DESCRIPTION

UNIQUE ROLE

The role of the Online Campus Pastor is to oversee People's EC Online Campus "The Echo" and maintain alignment with the broader ministry vision for the church as set by the Senior Pastor. While this person does not have to be a tech expert, they will need to have a broad understanding of leveraging technology to connect with and minister to people. Most importantly, a candidate for the role of Online Campus Pastor must be called by God to ministry in a church setting. This is a pastoral/directorial position that requires sound leadership.

Our Vision

The Online Campus exists to create a fully digital congregation whereby people from across the country and the world may join together to worship God, grow in the knowledge of His word, fellowship among believers, and to go out and make disciples of all nations. This will be done through creating an online worship environment that parallels what it is like to be in person, by providing online Bible studies and small groups, overseeing our online discipleship academy, offering online counseling and fellowship opportunities, and leading others to do evangelism both online and in person.

PRIMARY AREAS OF RESPONSIBILITY

The Online Pastor will advance the mission and vision of our church by working collaboratively with all leaders to deliver value to people at all stages of spiritual development, including the lost, the curious, the interested, and those who have accepted Jesus as Lord of their life. This will be accomplished by working across social media platforms and digital communication tools to implement a holistic digital discipleship strategy. The Online Campus Pastor will lead the development and implementation of our comprehensive digital discipleship strategy; moving people from being disconnected from God to making disciples. The role is both, pastoral and technical as the Online Campus Pastor's expertise will be called upon to help inform the church's digital marketing and communications strategy. The end goal is to replicate everything possible that we do in person to reach as many people in our country and around the world for Christ.

The Online Campus Pastor will report to the Senior Pastor and will be a part of the ministry council of the church.

Key Aspects:

Discipleship-

-Oversee online small group Bible studies

-Maintain at least one weekly Bible study through Zoom/Discord

- Seek to train and develop new Bible study leaders

-Oversee the online discipleship academy

- Read and respond to assignments that are turned in. (Assignments that you do not feel comfortable/equipped enough to respond to may be passed along to the senior pastor)

-Continue to seek new and innovative ways to disciple people online

Worship-

-Work with the Online campus team to develop a platform for online services that is interactive and personal

-Be available following services to chat with online attendees to develop personal connections and encourage discipleship and fellowship participation.

-The service itself will be streamed from the Weissport Campus. There will be periodic times of filling in for the senior pastor in this role.

-Work with the senior pastor to oversee the house church ministry.

Fellowship-

-Create online events that facilitate getting to know one another on a monthly or quarterly basis

Finance-

-Work with the online campus team to develop a way to encourage online giving through a portal separate from our existing online giving.

Evangelism-

-Spend time each week in the digital mission field by engaging people in conversation about the Gospel and inviting them to join worship or a small group.

-Social media websites such as Reddit, Facebook, Twitter, and Discord provide opportunities to converse with those around the country and world.

-Work with the online campus team and the Administrative Assistant for the church to develop a comprehensive social media approach to get the online campus in front of new people and supporting existing congregation members

- Oversee the online campus website making sure it is up to date and facilitating interaction.

Spiritual Care-

-Make yourself available to chat with online attendees that are going through a struggle using video chat when able. (Counseling can be escalated to the senior pastor whenever the online campus pastor feels it is best.)

-Establish online support groups for different issues as there is a perceived need among the existing attendees or when it is seen as an opportunity to reach new people.
