PROFESSIONAL PROFILE

An accomplished Public Health Specialist, University Chaplain, Lecturer, and Anglican Priest with over 13 years of progressive leadership experience spanning higher education administration, health promotion, pastoral ministry, teaching, research, and community development.

Currently serving as the University Chaplain at Chrisland University with the rank of Principal Assistant Registrar, providing strategic leadership for student development, institutional ethics, counselling services, and faith-based initiatives that complement the University's mission of academic excellence and character formation.

Possesses proven expertise in programme management, health promotion and education, behavioural change communication, stakeholder engagement, conflict resolution, organisational leadership, and multidisciplinary collaboration. A published researcher and doctoral candidate in Public Health with extensive experience designing and implementing interventions that improve individual and community wellbeing.

Committed to integrating academic excellence, public health practice, and transformational leadership to build healthier communities and ethically grounded institutions.
